

GW Departmental User Guidelines

How to Book Space

- All event requests need to be submitted through the online reservation system. Phone, email or paper forms cannot be accepted.
- Requests should include as much detail about the event and facility needs as possible.
- We cannot accept incomplete online requests.
- Online request forms with acronyms and abbreviations cannot be accepted.
- Submitting an online request for a space does not guarantee event or space approval.

Authorized Schedulers

- Departments are allowed three authorized schedulers.
- To add or change a department scheduler, the Department Authorized Schedulers Request Form needs to be completed.
- All authorized schedulers may only use a personalized and unique George Washington University (GW) NetID. Generic office email accounts managed by multiple people may no longer be used in authorized scheduler accounts. This change is to ensure that only the permitted individuals are responding to all event space related inquires and emails.
- Authorized schedulers are not permitted to share their personal login information to allow a non-authorized individual to reserve space. If a department or student organization is found to be breaking this policy, then the account will be put on hold and they will not be able to reserve any space. Our office will notify the group of this hold and the authorized scheduler will need to contact Events & Venues to discuss this policy.
- Events & Venues utilizes the authorized scheduler as the primary point of contact in conversations related to approving and confirming the space request. Authorized schedulers should be equipped to provide basic information about the event purpose and facility needs, regardless of their role in planning and implementing the event.
